PHYSICS	Bachelor of Arts in Physics	2 YEAR TYPICAL PROGRAM OF STUDY	2013-2014

DEGREE REQUIREMENTS	CURRICULUM NOTES
Credits: minimum of 180 credits **Credits in major:** 88 **GPA cumulative minimum:** 2.0 **GPA major minimum:** 2.0	PHYS ELECTIVES vary from year to year depending on faculty schedule, when course was last taught, student interest, etc. Typically the PHYS ELECTIVES rotate through the following course possibilities: PHYS 340 Nonlinear Dynamical Systems and Chaos; PHYS 362 Introduction to Astrophysics; PHYS 363 Introduction to Geophysics; PHYS 430 Modern Optics for Physicists and Engineers; PHYS 450 Atomic Physics; PHYS 470 Solid-State Physics; and PHYS 486 Particle and Nuclear Physics. **For complete information on courses, prerequisites, etc, use this information in conjunction with the online Catalog (http://catalog.seattleu.edu/) for the current year.**

The example below assumes that you enter Seattle University with junior standing (90 credits), have earned a transferable associate's degree, have completed all math requirements through differential equations, and have NOT previously completed the following sophomore-level course: PHYS 205 Modern Physics.
Students with AST may have additional core requirements depending on community college coursework

Your personal program of study may vary from this example due to prior educational experience or individual goals.
