CRIMINAL JUSTICE,
CRIMINOLOGY & FORENSICS

Program Handbook

2023-24

Welcome to the Department of Criminal Justice, Criminology, and Forensics!

Criminal Justice is a broad and fascinating field of study. Our department offers multiple degree/specialization options and a diverse selection of course offerings. Students choose the criminal justice major for a variety of reasons:

- To obtain a solid foundation in criminal justice in preparation for employment in the criminal justice system
- To obtain the necessary degree/coursework in preparation for graduate or law school
- To obtain the necessary degree/coursework in preparation for specialized employment in forensic science (e.g., crime labs, medical examiners offices)
- To obtain a Bachelors Degree consisting of interesting courses

Criminal Justice graduates pursue many career routes. Criminal Justice is an academic discipline that enjoys a high job placement rate. Criminal Justice graduates obtain positions in law enforcement, private security, community and institutional corrections, court services, victim services, crime labs, social services, and investigation in a range of public and private agencies (e.g., as medicolegal death investigators in medical examiners offices, fraud investigators in insurance agencies or the U.S. Postal Inspection, etc). Students who go on to law school tend to seek positions as public defenders or prosecuting attorneys. Those who pursue a graduate degree in criminal justice, forensic psychology, or other fields generally seek careers in academia, as forensic psychologists, or as clinicians and/or consultants at different stages of the criminal justice process. We are proud to say that our past graduates include law enforcement officers, corrections officers, community corrections officers, offender transition counselors, public defenders, prosecuting attorneys, private security supervisors, forensic scientists and technicians, medicolegal death investigators, victim advocates, juvenile detention and probation officers, and others who are making important contributions to the field of criminal justice.

In addition to an interesting, exciting curriculum geared toward specialized career goals, our department offers opportunities for internships, volunteer experience, and tours of local criminal justice agencies and facilities. Internship opportunities include: Washington State Department of Corrections, King County Department of Adult and Juvenile Detention, Family & Friends of Violent Crime Victims, Municipal Court of Seattle, Northwest High Intensity Drug Trafficking Area, Seattle Police Department, King County Sheriff, King County Medical Examiner's Office, Washington State Patrol Crime Lab, U.S. Investigations, and Federal Agencies including the FBI, INS, U.S. Marshals, ATF, DEA, U.S. Probation, Federal Bureau of Prisons, and U.S. Postal Inspection.

CRJS 4650 Crime Scene & Medico-Legal Death Investigation 5

In-depth look into crime scene and medicolegal death investigation. The manners, mechanisms, causes of death, and post-mortem changes, and wound interpretation are explored. The students will learn how to apply postmortem conditions to criminal investigations to confirm or refute evidence of wrongful deaths. The course will emphasize crime scene search, recognition of physical evidence, techniques and methods for collection, preservation and transmission for laboratory analysis of evidence, and the courtroom presentation of investigators actions at the crime scene. A component of this course will involve development of/participation in a mock crime scene investigation. Recommended Prerequisites: CRJS 3200, CRJS 4800.

CRJS 4770 Criminal Justice Honors Directed Reading 3

CRJS 4780 Criminal Justice Honors Directed Study 3

CRJS 4790 Criminal Justice Honors Thesis Supervision 4

CRJS 4800 Forensic Science 5

Study of the application of science to law and the criminal justice system. Overview of disciplines, theories, techniques and practices of which the field of forensic science is comprised. Fulfills Interdisciplinary Core Requirement.

CRJS 4810 Murder Movies & Copycat Crime 3/5

Examination of the relationship between crime, criminal justice, and popular culture with attention to the criminogenic and cathartic effects of film and media depictions of violent crime, specifically murder. Focus on the dynamics of moral panics and copycat crime, the reflexive relationship between media and crime, and the individual-social-cultural effects of violent images and artifacts.

CRJS 4850 Forensic Science Lab 3

Application of scientific methods and techniques to problems in the field of forensic science and crime scene investigation. Hands-on introduction to techniques used in the forensic science laboratory. Lab exercises involving a range of forensic science methods, techniques, and specializations including: Evidence collection and handling, analysis of hair and fiber, trace evidence, toolmarks, blood stains and spatter patterns, gunshot residue, and other physical evidence, fingerprinting and fingerprint enhancement, footwear comparisons, forensic serology, and toxicology, DNA analysis, firearms and questioned document examination. Prerequisites: BIOL 1610/1611, CHEM 1500, PHYS 1050 or 1210, CRJS-CHEM 4800, BA and BS/Forensic Science majors only or permission of the Department Chair.

CRJS 4870 Senior Synthesis 3 to 5

CRJS 4910 Special Topics 1 to 5

CRJS 4950 Internship 5

Direct observation, supervised practical experience, and academic study in a selected law enforcement agency or organization in the criminal justice system. CR/F grading mandatory. Prerequisite: junior and senior standing and departmental permission.

CRJS 4960 Independent Study 1 to 5

CRJS 4970 Directed Reading 1 to 5

CRJS 4990 Directed Research 1 to 5

Program Objectives

Criminal Justice is an interdisciplinary social science involving the study of crime and societal responses to it. The objective of a criminal justice major is to develop in students the knowledge, insight, critical thinking skills, values and ethical consciousness essential to becoming responsible practitioners, managers, researchers, and leaders in criminal justice. The criminal justice major is designed to provide students with conceptual and research knowledge that will foster sophisticated thinking, reflection, and action regarding crime and criminal justice. We hope to instill in students a responsibility to integrate and evaluate conceptual and empirical contributions to the field of criminal justice and to understand the relationship between criminal justice theory, policy, and practice. The driving spirit of the criminal justice program is one that reflects the basic foundation of Jesuit education -- reflection and action. We seek to develop a spirit of inquiry and innovation in students -- encouraging them to ask "why not?" of things not tried and to reflect and think critically about crime and justice issues and the systems that deal with them in our complex society.

The criminal justice curriculum provides a foundation for understanding contemporary criminal justice theory and practice. The criminal justice major offers scholarly emphasis and critical appraisal of law enforcement, the courts, and corrections and is designed to provide students with knowledge of the components of criminal justice system and stages of criminal justice process. In recent years, the field of criminal justice has become increasingly interdisciplinary. Now, more than ever before, criminal justice graduates must be interdisciplinary experts with a strong background in the social and physical sciences. To meet the needs of a quickly evolving, increasingly demanding, and growing job market, our department offers multiple degree and specialization options: The Bachelor of Arts (BA) with specialization in Administration of Justice, Criminology & Criminal Justice Theory, Forensic Psychology, and Forensic Science and the Bachelor of Science (BS) with specialization in Forensic Psychology and Forensic Science. We also offer two accelerated programs: a six-year BA/JD program with the SU School of Law, and a five-year BA/MA program in criminal justice. Internship and Research opportunities supplement coursework by providing students with experience working and conducting research within criminal justice agencies. Graduates are prepared for positions in law enforcement, the courts, victim services, institutional and community corrections, investigation and social service in private, county, state, and federal agencies and/or to pursue graduate study in criminal justice, criminology, forensic science, forensic psychology, or law.

The core criminal justice curriculum required for all majors consists of coursework in criminal justice; criminology; criminal law; statistics; research methods; gender, race and crime; organizational theory; and criminal justice ethics. Degree and specialization options allow students to take additional coursework in specialized areas to meet diverse student interests and to prepare students for positions in the criminal justice field that require specialized coursework and knowledge.

Department of Criminal Justice, Criminology & Forensics Faculty & Staff

The Department of Criminal Justice, Criminology, and Forensics faculty consists of nine full-time faculty members and a large number of adjunct faculty who have graduate degrees in criminal justice, law or related disciplines and/or are professionals in the criminal justice field.

CRJS 4530 US Marshals Practicum 1
This is a practicum opportunity facilitated by the US Marshals. Students are provided with an inside look at the roles and responsibilities of the Marshals, and the range of units within the agency.

CRJS 4540 DEA Practicum 1
This is a practicum opportunity facilitated by the Drug Enforcement Agency. Students are provided with an inside look at the roles and responsibilities of DEA special agents, and the range of units within the agency.

CRJS 4560 Forensics Practicum 3
This is a practicum opportunity associated with the School of Law that exposes students to the interaction between the attorney and expert witness. Students work with/assist third-year law students enrolled in the School of Law forensics course to prepare, research, interview, depose, and engage in cross and direct examination of expert witnesses in civil and criminal cases.

CRJS 4570 Trial Skills Practicum 3
This is a practicum opportunity associated with the School of Law clinic. Students work with law students and faculty to prepare, play a role, and present in a mock trial. CR/F grading mandatory.

CRJS 4580 FBI Practicum 1
This course is facilitated by the Federal Bureau of Investigation and provides students with an inside look at the roles and responsibilities of FBI special agents, the range of units within the agency. Topics include: practical problems involving evidence collection and preservation; FBI jurisdiction and congressional oversight, structure and operation of FBI field offices and satellite agencies; fingerprint, forensic, technology, training, and other services; policies and issues; ethics, discipline, communications, drug enforcement, civil rights, and future criminal trends. CR/F grading mandatory.

CRJS 4590 Research Practicum 1-10
Hands-on experience conducting crime and justice-related research. Involvement in all phases of the research process — literature review, research design, contacting agencies, data collection and analysis, and preparation of a paper for presentation at an academic and/or professional conference. Students may develop an original project or may assist a faculty member with ongoing research. CR/F grading mandatory. Prerequisites: CRJS 3020, junior or senior standing, and instructor permission.

CRJS 4600 Forensic Anthropology 5
Overview of skeletal biology and its application to medico-legal death investigation. Study of the human skeleton including the individual bones, the major anatomical landmarks, and the range of human variation. Focus on the human skeleton in a medico-legal context including locating covert burials, processing outdoor scenes, determination of biological profile, trauma analysis, cause and manner of death, postmortem interval and methods of positive identification. The course is not designed to make students forensic anthropologists but rather to impart an overall understanding of the discipline and an appreciation for its contributions to forensic science. Recommended Prerequisites: BIOL 2200, BIOL 2210.

CRJS 4620 US Intelligence Community 5
Provides an introduction to the United States Intelligence Community (USIC). This class will study the history of the USIC prior to September 11, 2001, and the key role that intelligence played after September 11 to combat terrorism and national security threats facing the United States. Students will also provide a briefing to senior intelligence officials in the USIC.

counseling, and working with juvenile and adult offender populations. Focus on issues arising in working with offenders including personal safety, offender manipulation, balancing treatment/security/management goals, prison subculture, offender needs and adaptation to correctional environments, and general issues central to working with offenders in correctional and criminal justice settings.

CRJS 4220 Issues in Contemporary Law Enforcement 5

Seminar on current issues in contemporary law enforcement. Topics addressed in this course include: The politics of law enforcement, police brutality, the impact of administrative interventions on police discretion, and police strategies such as problem-oriented policing, "hot spot" patrols, paramilitary units, and the criminal investigative process.

CRJS 4230 Punishment and Social Theory 5

Exploration of the major social theories of punishment, historical and contemporary penological practice, and the death penalty and the modern execution process. Focus on society's justification for punishment as a response to crime and the function and meaning of punishment in modern society. Cross-listed with SOCL 3430. Prerequisites: CRJS 1100, CRJS 2090.

CRJS 4260 Terrorism and Homeland Security 5

An examination of the complex concepts and issues associated with global terrorism, U.S. homeland security, and the role of law enforcement; the events leading to the terror attacks on September 11, 2001, and those events before and after that date leading to the developing concepts and principles commonly associated with homeland security. Topics include historical overviews of U.S. and international terrorism, the nature of executive level decision-making regarding homeland security issues, and legal considerations.

CRJS 4300 Criminal Justice Organizations 5

Organizational analysis of criminal justice agencies. Study of organizational theory as it applies to police, courts, and corrections. Focus on ethics, discretion, and decision-making at different stages of the criminal justice process with attention to individual-organizational-sociocultural dynamics. Topics include: Police deviance, the courtroom work group, and private/public correctional subcultures. Prerequisites: CRJS 1100, CRJS 2090. *Required for all criminal justice majors.*

CRJS 4500 The Psychopath 5

Study of psychopathy and its relevance to crime, violence, and the criminal justice system. Exploration of the origin and dynamics of psychopathy with focus on forensic assessment, prediction of dangerousness, and how scientific and popular conceptions of psychopathy shape criminal justice policy and practice. Recommended Prerequisites: CRJS 1100, CRJS 2090, CRJS 3600, PSYC 1200, PSYC 2150.

CRJS 4510 Trafficking 5

Overview of human and nonhuman trafficking. Critical examination of definitions and statistics regarding the size and scope of the global sex and human trafficking trade, the role of organized crime and the pimp-prostitute-john system of sex trafficking; the scope, size and examples of nonhuman trafficking, current intervention and prevention efforts; current trends in research, policies, and lawmaking; and survivors' experiences.

CRJS 4520 Serial Murder 5

Introduction to the origins, nature, and dynamics of serial murder. Review of theory and research on the origins and development of serial murder behavior, conceptual differences between different types of multiple murder phenomena, gender differences in serial homicide, the role of mental disorder, social and cultural forces, and environmental influences, investigating serial murder, understanding victimology and media attention to serial murder.

The Criminal Justice Major

Bachelor of Arts (BA)

with specialization in:

- Administration of Justice
- Criminology & CJ Theory
- Forensic Psychology
- Forensic Science
- Law (3+3 BA/JD Program)
- Administration of Justice (4+1 BA/MA Program)

Bachelor of Science (BS)

with specialization in:

- Forensic Psychology
- Forensic Science

Upon choosing Criminal Justice as a major, you will be required to designate which degree and specialization area you are interested in pursuing. The degree/ specialization you select will depend on your particular career and/or graduate school interests. The BS curriculum requires students to complete an interdisciplinary set of courses across the schools of Arts & Sciences and Science & Engineering. The BS degree is highly demanding, may require preparatory coursework in science and math. *The Bachelor of Arts and Bachelor of Science in Criminal Justice are available with honors* for students who meet the GPA criteria and apply to the honors program in the spring of the junior year.

The Criminal Justice Minor

The criminal justice minor provides students majoring in other disciplines with a foundation in criminal justice with opportunity to select elective courses with attention to individual interests and career goals. The criminal justice minor is ideal for students majoring in other disciplines who plan at some point in their careers to work in the criminal justice system and/or to go on to law school or a graduate program in a criminal-justice related field. The criminal justice minor may be of particular interest to Social Work, Sociology, or Psychology majors who plan to work in correctional settings, Public Administration or Political Science majors who plan to be involved in legislation and/or nonprofit work involving criminal justice issues, Philosophy or Liberal Studies majors who plan

to go on to law school to pursue a career in criminal law, and Physical Science majors who plan to seek employment in crime labs and/or to go on to graduate school in forensic science.

In order to earn a minor in criminal justice, students must complete 30 credits in criminal justice, including the following:

CRJS 1100	Introduction to Criminal Justice.....	5
CRJS 2090	Criminological Theory.....	5
CRJS 2100	Law, Society and Justice	5
CRJS Electives.....		15

Choosing a Degree/Specialization Option

The degree and specialization options are designed to meet the individual interests of students and to provide necessary preparation for particular careers and courses of graduate study. *The BA/Administration of Justice degree/specialization most closely reflects the traditional criminal justice degree offered at most universities.* The additional degree/specialization options require the same core coursework as the BA/AJ in criminal justice, criminology, criminal law, statistics, research methods, organizational theory, and criminal justice ethics while allowing students to complete important preparatory coursework for careers and graduate study that may require a stronger background in the physical sciences, psychology, and/or sociology than the traditional CJ degree provides. Students pursuing the criminal justice degree to obtain entry into a particular position or graduate program should work closely with their advisor and should consult the agency minimum qualifications and/or graduate program requirements.

A few tips/factors to think about in determining your degree/specialization:

- *If you are interested in pursuing employment as a forensic scientist, the only degree/specialization option offered through the CJ Department that will prepare you for this is the BS/Forensic Science degree.* Students pursuing this career route often choose to double major in a physical science and/or to go on to obtain graduate level training in forensic science in order to stand out in a highly competitive job market.
- *If your goal is to become a correctional counselor or PhD-level forensic psychologist, the BA or BS/Forensic Psychology specialization is a good choice.* However, getting into a PhD graduate program in forensic psychology is highly competitive. To increase your candidacy for graduate school, consider a double major or minor in psychology. Many graduate schools in psychology require the GRE/Psychology subject test and/or specific psychology coursework as an entrance requirement.
- *If you enjoy theory-based courses, plan to go to graduate school in a discipline or program that includes justice studies or criminology as part of a broader law and justice or sociology curriculum, and/or would like to minor in sociology,*

CRJS 3200 Criminal Investigation 5
Study of investigative theory and techniques. Focus on investigation of crime considering the origins, principles, science, and theories that explain society's justification for punishment.

CRJS 3500 Community Corrections 5
Overview of the theory and practice of community corrections. Examination of contemporary correctional interventions in community settings, alternatives to incarceration and intermediate sanctions, and issues involving the reintegration and community supervision of offenders.

CRJS 3600 Forensic Psychology 5
Overview of forensic psychology and the nexus between psychology, law, and criminology. Survey of policy, practice, and research in forensic psychology and application of psychology to the criminal justice system and criminal and civil litigation. Topics include: Criminal behavior, the relationship between the criminal justice and mental health systems, ethical guidelines and challenges faced in forensic work, methods and instruments used by forensic psychologists, investigative psychology and offender profiling, the insanity defense and competency determinations, risk assessment and prediction of dangerousness, sex offender treatment, and correctional interventions. Recommended Prerequisites: CRJS 1100, CRJS 2090, PSYC 1200.

CRJS 4000 Victimology 5
A survey of Victimology. Topics include: The impact of crime on victims, measuring crime through victimization, the social and psychological harm resulting from different types of crime, the victim-offender relationship, victim rights movement, public perception of victims and social reaction to victimization, the role of the victims in the criminal justice process, and crime prevention and personal safety. A component of the course will address restorative justice with attention to the differences between restorative and retributive models on justice, restorative justice initiatives in the criminal justice system, the balancing of victim, offender, and citizen needs and rights, and offender, community, and governmental responsibilities in meeting the needs of crime victims.

CRJS 4010 Criminal Profiling 5
Study of the differentiation of criminal types in criminal justice policy and practice. Theoretical foundations of typology construction, criminal profiling, and the characteristics of offender types. The application of criminal typologies is discussed with attention to their use in police profiling, criminal law and courtroom proceedings, and correctional classification, management and treatment. Recommended Prerequisites: CRJS 1100, CRJS 2090, CRJS 3600.

CRJS 4050 Gender, Race and Crime 5
Study of gender and race/ethnicity disparities and discriminatory practices in criminal justice with attention to the ways in which gender and race/ethnicity has been historically addressed in criminological theory. Exploration of feminist and cultural perspectives in understanding crime and its response. Comparisons in offending, police contact, case processing, correctional supervision, and confinement, capital punishment, and social response and control of criminal behavior. Topics include: Racial profiling, race and gender disparity versus discrimination at different stages of the criminal justice process, female offending, and male violence against women. Cross-listed with SOCL 4410.

CRJS 4100 The Polygraph 5
Overview of the use of the polygraph in the criminal justice system. Theory, techniques, application, legal and ethical considerations in the use of the polygraph in the criminal justice system.

CRJS 4200 Working with Offender Populations 5
Overview of theory, research, and practice regarding correctional interventions, correctional

phenomenological, and routine-activity theories. Prerequisite CRJS 1100. *Required for all criminal justice majors.* (formerly titled Criminological Theories).

CRJS 2100 Law, Society, & Justice 5
Analysis of theories of law and the meaning of justice in Western culture. Focus on theories of justice and their impact on the criminal justice system, the nature and function of law, the relationship between law and morality, and judicial reasoning. Core Module I option (formerly CRJS 300/ Society & Justice)

CRJS 3010 Criminal Justice Research Methods 5
Overview of social science research methods, applied statistical techniques, and statistical software used in criminology and criminal justice. The course is divided into two components: (1) Research design and the research process and (2) Introduction to computer data analysis using SPSS. Focus on the research process including design, literature review, data collection, sampling, data analysis, and presentation. Prerequisites: UCOR 1200, CRJS 1100, CRJS 2090.

CRJS 3020 Criminal Justice Statistics 5
Survey of statistical methods used in the criminal justice field. Focus on the scientific method, hypothesis testing, descriptive and inferential statistics. Topics include measures of central tendency, probability theory, confidence intervals, frequency distributions, correlation and regression, sampling procedures and distributions, hypothesis testing, contingency tables, measures of association, and chi-square, t-tests, analysis of variance, and interpreting research results. Students will develop a tool box to critically examine the value, validity, and appropriate use and interpretation of statistics in criminal justice. Prerequisite: CRJS 1100, CRJS 2090. *Required for all criminal justice majors.*

CRJS 3030 Juvenile Justice 5
Overview of the juvenile justice system and the handling of juveniles by the police, the courts, and corrections. Discussion of contemporary issues in juvenile justice, including youth violence and its prevention and control in American society.

CRJS 3060 Police and Society 5
Study of the role of the police in society with attention to the origins of policing, the nature of police organizations and police work, and the relationship between the police and the public.

CRJS 3080 Jails and Prisons 5
Survey of the history, philosophy, and practices of adult institutional and community corrections. Analysis of contemporary issues in corrections and correctional reform.

CRJS 3100 The Criminal Trial and the Courts 5
Analysis of the structure and function of the American court system with attention to the roles of the judge, prosecutor, defender, defendant, jury, victim, witnesses and court administrator.

CRJS 3120 Criminal Law 5
Study of the criminal law processes from detention to appeal. State and federal rules of criminal procedure. Understanding of policies, due process, self-incrimination, search and seizure, right to counsel, and other constitutional issues. *Required of all criminal justice majors.* Prerequisite: CRJS 1100.

CRJS 3150 Criminal Procedure 5
Overview of constitutional limitations on the criminal justice system, Bill of Rights, due process and civil liberties, investigative and trial procedures, and criminal procedure from arrest through post-conviction. Focus on the rule of law in law enforcement, search and seizure, and arrest, interrogation, identification. Recommended Prerequisites: CRJS 1100, CRJS 3120.

anthropology, or social work, the criminology & criminal justice theory specialization would be a good choice.

- If you want a traditional criminal justice degree that provides a strong and broad foundation in law enforcement, courts, and corrections, choose the BA/Administration of Justice degree/specialization. Students interested in pursuing law enforcement, correctional custody, crime prevention/security, and law school tend to select this option.
- *If you are unsure of which degree/specialization option to select, choose the BA/Administration of Justice.* You may change your degree/specialization at any time by contacting the Department Chair or Administrative Assistant.

The following are examples of career and/or graduate school routes criminal justice students tend to pursue. These are *examples* – selection of a degree/specialization option is an individual choice and depends on your own goals and interests and the particular courses you want to take as part of your undergraduate degree.

Bachelor of Arts (BA)
with specialization in:

Administration of Justice

- Employment in city, county, state, federal law enforcement, courts, institutional and community corrections, juvenile justice, victim services, private security, investigation.
- Graduate school in criminal justice/criminology, public administration, political science.
- Law School

Criminology & CJ Theory

- Employment in city, county, state, federal law enforcement, courts, institutional and community corrections, juvenile justice, victim services.
- Graduate school in sociology/criminology or criminal justice/criminology.
- Law School

Forensic Psychology

- Employment as a correctional counselor, community corrections officer, juvenile justice or social service caseworker, victim advocate.
- Graduate school in forensic psychology.
- Law School

Bachelor of Science (BS)
with specialization in:

Forensic Psychology

- Employment as a correctional counselor, community corrections officer, juvenile justice or social service caseworker, victim advocate.
- Graduate school in forensic psychology.
- Law School

Forensic Science

- Employment as a forensic scientist or forensic technician in a local, state, federal, or private crime lab.
- Employment as a medicolegal death investigator at a Medical Examiner or Coroner's Office.
- Graduate school in Forensic Science.

Bachelor of Arts (BA)
with specialization in:

Forensic Science

- Employment in local, state, or federal law enforcement, fraud investigation, or forensic technology positions that do *not* require a physical science degree.
- Graduate school in forensic science programs that do *not* require a BS/Physical science degree.

Core Requirements for the Bachelor of Arts

In order to earn the Bachelor of Arts (BA) degree, students must complete a minimum of 180 quarter credits with a cumulative and major grade point average of 2.0 including the following:

Core Curriculum Requirements

Module I

UCOR 1100	Academic Writing Seminar	5
UCOR 1200	Mathematics and Quantitative Reasoning	5
UCOR 1300	Creative Expression and Interpretation	5

MAJOR IN CRIMINAL JUSTICE WITH DEPARTMENTAL HONORS

The honors major in criminal justice offers an opportunity for motivated and capable students seeking the bachelor in criminal justice to engage in more extensive interaction with faculty and to complete challenging individual research projects that will further their personal and professional goals.

Application to the major: To be accepted to the program, students must have both a cumulative and major/program grade point average of 3.5 and must have completed CRJS 1100, CRJS 2090, CRJS 3010, and CRJS 3020. Interested students should apply in Spring quarter of the junior year or Fall quarter of the senior year.

Completion of the major: During senior year, criminal justice honor students will take the criminal justice honors sequence:

CRJS 4770	Criminal Justice Honors Directed Reading	3
CRJS 4780	Criminal Justice Honors Directed Study	3
CRJS 4790	Criminal Justice Honors Thesis Supervision	4

(CRJS 4770 for 3 credits in the Fall quarter, CRJS 4780 for 3 credits in the Winter quarter, and CRJS 4790 for 4 credits in the Spring quarter). Students in the criminal justice honors major complete the 10 credits of honors course work above the norm for criminal justice majors (a total of eighty-five credits in criminal justice for the BS/Forensic Psychology and 115 credits in criminal justice for the BS/Forensic Science), and also complete a substantial thesis under the direction of a faculty member. The thesis will be subject to approval by departmental faculty and will be presented in an oral defense. In order to complete the requirements for criminal justice honors and receive a notation to that effect on their transcripts, students must also maintain a cumulative and major/program grade point average of 3.5. In addition, the grade received for CRJS 4790 Criminal Justice Honors Thesis Supervision must be an A or A-.

In order to earn the Bachelor of Science in criminal justice degree with departmental honors, students must complete 190 quarter total credits for the forensic psychology specialization and 202 total credits for the forensic science specialization and must also maintain a cumulative and major/program grade point average of 3.5.

Bachelor of Arts

MAJOR IN CRIMINAL JUSTICE WITH DEPARTMENTAL HONORS

The honors major in criminal justice offers an opportunity for motivated and capable students seeking the bachelor in criminal justice to engage in more extensive interaction with faculty and to complete challenging individual research projects that will further their personal and professional goals.

Application to the major: To be accepted to the program, students must have both a cumulative and major/program grade point average of 3.5 and must have completed CRJS 1100, CRJS 2090, CRJS 3010, and CRJS 3020 . Interested students should apply in Spring quarter of the junior year or Fall quarter of the senior year.

Completion of the major: During senior year, criminal justice honor students will take the criminal justice honors sequence:

CRJS 4770	Criminal Justice Honors Directed Reading	3
CRJS 4780	Criminal Justice Honors Directed Study	3
CRJS 4790	Criminal Justice Honors Thesis Supervision	4

(CRJS 4770 for 3 credits in the Fall quarter, CRJS 4780 for 3 credits in the Winter quarter, and CRJS 4790 for 4 credits in the Spring quarter). Students in the criminal justice honors major complete the 10 credits of honors course work above the norm for criminal justice majors (a total of 75 credits in criminal justice), and also complete a substantial thesis under the direction of a faculty member. The thesis will be subject to approval by departmental faculty and will be presented in an oral defense. In addition, the grade received for CRJS 4790 Criminal Justice Honors Thesis Supervision must be an A or A-.

Bachelor of Arts

LAW SPECIALIZATION (3+3 BA/JD PROGRAM)

The BA/Law specialization is designed for students who know early on that they are interested in the criminal law, and wish to attend law school at SU. This program enables students to complete a BA in criminal justice and a JD degree in six years, rather than the typical seven years. This specialization is open to students with a 3.5 high school GPA, or who subsequently establish a 3.5 GPA at SU. Students must maintain a 3.5 GPA (cumulative and in the major) while in the program, and must demonstrate appropriate temperament and character for success in the legal profession. The total credit requirement is 183 undergraduate credits (consisting of 138 quarter credits of Core, Arts & Sciences, and Criminal Justice requirements, plus 30 semester credits of law school taken in the Senior year and counted toward the BA degree), and 60 additional law school credits to complete the JD. Students take the LSAT and apply for admission to the SU School of Law no later than December of their Junior year. Students meeting the median LSAT score and GPA of the previous entering class are guaranteed admission to the law school. Students not meeting those criteria will still be considered but are not guaranteed admission.

Bachelor of Arts

ADMINISTRATION OF JUSTICE (4+1 BA/MA PROGRAM)

The BA/MA program is designed for students who know early on that they wish to pursue a graduate degree in criminal justice at SU. This program enables students to complete a BA and MA in criminal justice in five years, rather than the typical six years. This specialization is open to students with a 3.5 high school GPA, or who subsequently establish a 3.5 GPA at SU. Students admitted to this program must have a cumulative and a major/program grade point average of 3.5 in order to be admitted for MA studies and take graduate courses during their Senior year; otherwise they will terminate with the BA degree only. The total credit requirement is 180 undergraduate credits (including seven graduate-level courses taken in the Senior year and counted toward the BA), and 36 graduate credits to complete the MA.
