

**Y Become
a Math
Major**

ONE of the biggest misconceptions about mathematics is that the only thing you can do with a math degree is become a high school math teacher or an actuary. This could not be further from the truth! Mathematics provides a great preparation for a variety of jobs. In the current job market, many employers are desperate for applicants that have a mathematical background and problem solving skills. A mathematics major can provide you with critical thinking skills and technical training that will give you access to numerous fulfilling, higher-paid jobs.

PARTIAL LIST OF CAREERS THAT USE MATH

Animator ■ \$99,130/yr
Architect ■ \$122,640/yr
Astronaut ■ \$93,000/yr
Biologist ■ \$100,580/yr
Chemist ■ \$114,880/yr
Climatologist ■ \$127,250/yr
Computer Scientist ■ \$155,420/yr
Economist ■ \$153,210/yr
Electrical Engineer ■ \$126,810/yr
Epidemiologist ■ \$92,610/yr
Forensic Analyst ■ \$84,260/yr
Geologist ■ \$161,260/yr
Market Research Analyst ■ \$111,900/yr
National Security Analyst ■ \$105,581/yr
Nuclear Engineer ■ \$140,140/yr
Physician ■ \$166,400/yr
Political Scientist ■ \$151,360/yr
Statistician ■ \$117,210/yr
Urban Planner ■ \$94,800/yr
