
Joshua M. Hamel, Ph.D., P.E.
Seattle University, Mechanical Engineering Department
901 12th Avenue, Seattle, WA 98122

Curriculum Vitae (as of 9/2022)
Email: hamelj@seattleu.edu
Phone: 206-220-8464

Education

Ph.D. - Mechanical Engineering 07/2007 – 08/2010

University of Maryland, College Park, MD

- Advisor: Dr. Shapour Azarm
- Thesis: *Sensitivity Analysis Based Approaches for Mitigating the Effects of Reducible Interval Input Uncertainty on Single- and Multi-Disciplinary Systems using Multi-Objective Optimization*

M.S.E. - Mechanical Engineering 08/2000 – 12/2001

University of Michigan, Ann Arbor, MI

- Advisors: Dr. Steve Ceccio and Dr. David Dowling
- Thesis: *Hydrofoil Static Pressure Acquisition at High Reynolds Number*

B.S. - Mechanical Engineering 06/1996 – 05/2000

United States Naval Academy, Annapolis, MD

Research Interests

- Design and optimization of complex and multidisciplinary engineering systems
- Approximation and reduced order computational modeling of systems
- Design for additive manufacturing

Academic Appointments

Associate Professor 09/2020 – Present

Seattle University - Mechanical Engineering Department

Affiliate Faculty 01/2017 – Present

University of Washington – Mechanical Engineering Department

Assistant Professor 09/2014 – 08/2020

Seattle University - Mechanical Engineering Department

Assistant Professor 08/2010 – 08/2014

California State University, Long Beach - Mechanical and Aerospace Engineering Dept.

Military Experience

Reserve Officer, Naval Aviator, U.S. Navy 08/2010 – 06/2020

Active Duty Officer, Naval Aviator, U.S. Navy 05/2000 – 07/2010

Journal Publications

Li, M., Hamel, J., and Azarm, S., “Multi-Disciplinary Multi-Objective Sensitivity Analysis (MIMOSA) with Interval Parameter Uncertainty,” 12th AIAA/ISSMO Multidisciplinary Analysis and Optimization Conference, Victoria, British Columbia, Canada, September 2008.

Bourgoyne, D.A., Hamel, J.M., Judge, C., Ceccio, S.L., Dowling D.R., and Cutbirth, J.M., “Hydrofoil turbulent near wake structure and dynamics at high Reynolds numbers,” 24th Symposium on Naval Hydrodynamics, Fukuoka, Japan, July 2002.

Bourgoyne, D.A., Hamel, J.M., Judge, C., Ceccio, S.L., and Dowling D.R., “Lifting Surface Flow, Pressure and Vibration at High Reynolds Number,” ASME International Conference and Exposition, New York, NY, November 2001.

Invited Talks

Hamel, J., “Approaching Engineering Challenges with a Design Optimization Perspective,” UW ME Department Graduate Seminar Series, December 2017.

Hamel, J., “Design Optimization and Strategies for Systems Involving Computational Fluid Dynamics,” ASME IMECE Conference, Denver, CO, November 2011.

Teaching Experience

Seattle University

- MEGR 1810: Innovative Design (2 credits)
- MEGR 1890: Integrated Design 1 (3 credits)
- MEGR 2100: Statics (4 credits)
- MEGR 2300: Dynamics (4 credits)
- MEGR 2810: Engineering Methods (4 credits)
- MEGR 3060: Machine Shop (1 credit)
- MEGR 4910: Design Optimization (3 credits)
- MEGR 5110: Engineering Design Decision-Making (3 credits)

California State University, Long Beach (08/2010-05/2014)

- MAE 590: Optimal Engineering Design Decision-Making
- MAE 471: Design and Analysis of Mechanical Engineering Systems I
- MAE 472: Design and Analysis of Mechanical Engineering Systems II
- MAE 453/553: Stability and Control of Aerospace Vehicles
- MAE 205: Computer Methods in Mechanical and Aerospace Engineering
- MAE 333: Engineering Fluid Dynamics

United States Naval Academy (08/2007-05/2010)

- EM 472: Mechanical Engineering Design
- EM 375: Introduction to Engineering Experimentation
- EM 215: Introduction to Mechanical Engineering
- EM 300: Principles of Propulsion

Academic Honors

- Selected as 2012 ONR/ASEE Summer Faculty Fellow and performed research at the Navy’s SPAWAR Systems Center (SSC) Pacific in San Diego, CA.

Service

Seattle University

- MSME Program Director (2018 – Present)
- Chair, College of Science and Engineering Curriculum Committee (2020 – Present)
- Member, Seattle University Makerspace Advisory Committee (2019 – Present)
- Member, College of Science and Engineering Curriculum Committee (2017 – Present)
- Member, College of Science and Engineering Technology Committee (2018 – 2019)
- Member, College of Science and Engineering Business Continuity Committee

California State University, Long Beach

- Graduate Program Advisor for M.S. in Mechanical Engineering (MSME) Program
- Undergraduate Advisor and Mechanical Engineering (ME) Program Coordinator for CSULB's Antelope Valley Extension Program
- Chair, MAE Departmental Curriculum Committee

Community

- Reviewer for multiple journals, including: *ASME Journal of Mechanical Design*, *Structural and Multidisciplinary Optimization*, *Engineering Optimization*, *Energy*, *Aerospace Science and Technology* and *Mechanics Based Design of Structures and Machines*.
- Reviewer for the ASME IDETC/CIE and IMECE Conferences, and co-review coordinator for the Design for Additive Manufacturing tracks in 2018, 2019, 2020 and 2021.

Funding

- Awarded Seattle University College of Science and Engineering Summer Undergraduate Research Support Award, ~\$10k, 6/2019-9/2022.
- Co-PI on a one-year proposal submitted to the NEH with Dr. John Trafton in Film Studies at SU: *Visualizing Your Future: Making the Sciences Cinematic*,” ~\$35k, submitted summer 2021 but not funded, and resubmitted summer 2022.
- Awarded Seattle University College of Science and Engineering Summer Undergraduate Research Support Award, ~\$5k, 6/2019-8/2019.
- Awarded Seattle University College of Science and Engineering Summer Undergraduate Research Support Award, ~\$5k, 6/2018-8/2018.
- Co-Investigator on three-year research proposal submitted to NSF with Dr. Duane Storti at UW: *Towards a Unified Representation of Solids for Use in the Engineering Design and Manufacturing Workflow*, ~\$300K, submitted fall 2017, but not funded.
- Senior Personnel on five-year NSF RED grant awarded to the ME Department at Seattle University, ~\$1.8M, 2017-2021.
- Awarded Seattle University College of Science and Engineering Summer Undergraduate Research Support Award, ~\$5k, 6/2016-8/2016.
- Principle Investigator (PI) for awarded research and development contract from Lawrence Livermore National Laboratory: *Optimal Design of Bennett Engine Concept*, \$25K, 6/2013 – 12/2013.

- Contributed significantly in the writing of a successful three-year research proposal to the Office of Naval Research (ONR), with Dr. Shapour Azarm (PI): *Multidisciplinary Sensitivity Analysis and Optimization under Uncertainty*, \$360K, 10/2008 – 09/2011

Professional Affiliations

- Member of the American Society of Mechanical Engineers (ASME)

Miscellaneous Skills and Certifications

- Certified as State of Maryland Professional Engineer (PE), License #25325.
- Certified as an FAA commercial pilot and an FAA instrument rated pilot, in both fixed-wing and rotary-wing aircraft, in June 2003.
