# CONGRATULATIONS!

You've been admitted to Seattle University. We are the premier independent university of the Northwest, rich in Jesuit tradition and heritage, located in a diverse world-class city.

Living on campus is an integral part of the educational experience. Students residing on campus are often more involved in activities and programs, achieve greater academic success, and graduate feeling more satisfied with their overall university experience.

In Housing and Residence Life, we will support you as you transition to living on campus and at Seattle University. The staff will provide you with resources and help you in making connections to university services, programs, and events. We foster a vibrant community where you can connect with your peers, engage with faculty and staff members, and participate in your new home.

Convenient access to campus resources, the bustling Capitol Hill neighborhood, and the beautiful Puget Sound region are just a few of the benefits of living on campus. Many alumni even share that some of their fondest college memories stem from the friendships they made and the activities they were involved in while living in the residence halls.

We look forward to assisting you with your housing assignment as well as your transition to campus. You can expect to be notified of your housing in late July. If you have any additional questions or need clarification, please visit our website at [www.seattleu.edu/housing](http://www.seattleu.edu/housing) or contact us at: 206- 296- 6305 or [housing@seattleu.edu](mailto:housing@seattleu.edu).

## ON-CAMPUS LIVING

Seattle University is committed to the education of the whole person, and the residential experience is considered an integral part of a student's education.

We are committed to providing as many students as possible with learning and life-enriching experiences that come from living in student housing. Living on campus supports and fosters personal connections, community membership and participation, convenience and proximity to academic and campus services, and care of residential students.

Research over the past 60 years shows that students who belong to a campus residential community have a more productive and more satisfying college experience than those who live off campus. Students who live on campus are more likely to:

- Take full advantage of campus resources.
- Be more involved in campus activities and educational programs.
- Take more credits per quarter.
- Achieve greater academic success.
- Be more satisfied with the overall university experience.

To support and engage with students Seattle University has a housing requirement. Students are required to live on campus and purchase the Residential Meal Plan if they fall into any of the following categories:

- Freshman or sophomore under the age of 21
- First- or second-year SU students under the age of 21
- Within two years of high school graduation date and under the age of 21

If students fall into any of the above categories (as of the first day of the academic year), they are required to live on campus for the FULL ACADEMIC YEAR. If the student's status (class year, age, etc.) changes during the academic year, they will not be released from this housing requirement until the following academic year. The summer quarter is not included in the residential requirement.

To see our full housing policy go to [www.seattleu.edu/housing/policies-and-procedures](http://www.seattleu.edu/housing/policies-and-procedures).

Students may apply for an exemption to live at home. To apply for an exemption go to the housing portal and select "My Housing Plan" to fill out the 2024-2025 Housing Exemption form.

## HOUSING ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

Disability-related housing accommodations are modifications to the residential environment for students whose disabilities substantially limit their ability to participate in residential and housing life. Students requesting disability-based housing accommodations will need to meet with Disability Services staff and provide documentation supporting their request and disability-related needs.

Getting started with Disability Services: <https://www.seattleu.edu/disability-services/student-resources/new-students/>.

Accommodations for housing are approved on a case-by-case basis and are dependent on the nature of the disability and/or health condition as well as the impact on the campus living environment. Disability Services works in partnership with Housing and Residence Life to provide accommodations that meet individual students' needs.

Students should contact Disability Services as soon as possible as timely notice is needed to coordinate accommodations at 206-296-5740.

For more information on disability-based housing requests:

# FREQUENTLY ASKED QUESTIONS

## MAY I MAIL MY BELONGINGS TO CAMPUS EARLY?

Yes, however, we have limited space to store items, so please mail packages no earlier than 10 days prior to your arrival. Your belongings will be waiting for you at your residence hall front desk.

## ARE MICRO-FRIDGES OR KITCHENS AVAILABLE?

Bellarmino, Campion, Chardin, and Xavier have microfridges in each room as well as kitchens in each of each residential community. Campion Hall has kitchens on every floor. Apartments have kitchens in each unit.

## HOW DO I CHANGE MY MEAL PLAN?

In compliance with the on-campus living policy, first-year and sophomore students living on campus are required to have at least the Residential Meal Plan. Students may request to change their meal plan by filling out the Meal Plan Change Request form through the [Housing Portal](#) on our website within the first 10 business days of the quarter. A supplemental meal plan allows additional money to be added to the account.

## WHAT IF I NEED SOMETHING FIXED IN MY ROOM?

Students submit work requests online to fix any problems in their rooms and request that their beds be bunked, lofted, or unbunked. This can be done through the Work Order portal on our website.

## I NEED MY OWN ROOM

First and second year students will be placed in a shared room. If you are requesting a single space as a medical accommodation, please note this on your housing application in the "Additional Information" section and contact Disability Services to talk about your specific accommodation request. We work closely with Disability Services to meet your housing needs. Please send all requests to Disability Services no later than **July 1, 2024**.

## I UNDERSTAND THAT ALL FIRST AND SECOND YEAR STUDENTS ARE REQUIRED TO LIVE ON CAMPUS BUT I WANT TO COMMUTE FROM HOME. WHAT DO I DO?

Sign into the [Housing Portal](#), follow the steps to complete a housing exemption to commute from home, and upload supporting documents.

Go to the Exemption page for detailed information: <https://www.seattleu.edu/housing/policies-and-procedures/housing-exemption/>

## CAN I BRING A CAR? A BIKE? WHAT ARE THE PUBLIC TRANSPORTATION OPTIONS?

First-year students may request to purchase a parking pass via [Transportation and Parking Services](#). Students can bring bikes, and we provide outdoor and covered bike racks. Bus stops are on almost every corner, and [Transportation and](#)

[Parking Services](#) provides discounted bus passes.

## I DON'T KNOW ANYONE AND AM WORRIED I WILL NOT FIND A ROOMMATE.

No problem! We will match you with a roommate based on answers to your profile questions in the housing application. On the other hand, if you would like to make yourself searchable through the Roommate Search process, indicate that you want your profile to be searchable in the "Profile Searching" section. If this is not selected, you can go back into your application to select it. The optional roommate search opens on **May 29 at 12 p.m. PDT**.

## I HAVE A FRIEND I WANT TO ROOM WITH

Is your friend also an incoming student? If so, you will have the opportunity to select them as your roommate starting June 1 through the Roommate Search process. More information will be sent out closer to the date.

## THE PERSON I WANT TO ROOM WITH CAN'T FIND ME ON THE PORTAL

Are you trying to search before June 1? The search option opens on June 1. Have you AND your friend made yourself searchable on the application? If not, neither of you will be able to find each other. Go back into the housing application and select "Yes" for Profile Searching in the Profile Question section.

## WHAT HAPPENS IF I DON'T GET ALONG WITH MY ROOMMATE(S)?

We encourage roommates to communicate over the summer about sleep habits, study habits, favorite bands, etc. We spend considerable time matching roommates based on their responses to the housing form. During the first week, roommates will sign a roommate agreement outlining their agreed-upon expectations for their living situation. Learning to live with someone is an important life skill, and we provide both student and professional staff support to residents as they navigate this challenge. Resident Assistants are there to help mediate conflicts and students should contact their RA first with any issues that arise. Our RA staff will refer students to our professional staff if necessary to come to a solution, which may include a room change.

## WHEN DO I GET MY ROOM ASSIGNMENT?

Room assignments will be available on the Housing Portal on **July 30**. Transfer students will receive their room assignment anytime after this date as they are placed.
