# ANNUAL REPORT 2023-2024

SEATTLE  
UNIVERSITY

## Message from the Provost

Seattle University is a professional learning community dedicated to continuous growth and improvement, and this annual report is a testament to that fact. Over the past five years, the Office of Sponsored Projects, responding adeptly to the increasing demands of our research community, has delivered innovative solutions expanding services and programs. This expansion has strengthened our ability to foster collaborative efforts across disciplines, broadened our institution's capacity to support impactful programs, and adapted efficient approaches to manage the complexities of sponsored projects. I am deeply heartened by the momentum of growth in sponsored projects activity—and grateful for the ingenuity and dedication of our faculty and staff, who continue to seek innovative solutions to reimagine and revise our curriculum, enhance our students' experiences, engage with community and industry partners, and conduct novel research for a more just and humane world.

I commend the Office of Sponsored Projects for leading our campus toward change and growth in sponsored projects and external funding—and invite you to read the full impact of their services in this year's annual report.

Sincerely,  
*Shane P. Martin*  
**Dr. Shane Martin**  
Provost

## Message from the Director

Academic year 2023-2024 marks five years from the development of an Office of Sponsored Projects (OSP) internal strategic plan with a mission to cultivate a culture of research and grant-seeking. Three objectives that have guided our services and programs over the past 5 years: 1) celebrate research and sponsored projects, 2) support the success of our community, and 3) serve as a leader for research and grant-seeking. These objectives have set OSP on a new path of:

- **Expanded programs and initiatives** have included lightning talks, our quarterly newsletter and annual report, regular learning opportunities, proposal writing groups, student researcher safety trainings, an Academic Assembly-sanctioned advisory council, and our Proposal Review by External Peers (PREP) Program, to name a few.
- **Expanded services** to improve research development and compliance and reduce the administrative burden on principal investigators and budget managers, including individual research consultations, enhanced proposal reviews, grant purchasing support, in-depth budget analysis and reviews, acceleration of grant close-outs, management of subawards and contractors, an institutional biosafety committee, and piloting of a monthly balance report.
- **Expanded staffing** with an Academic Safety Officer who has built new policies, processes, trainings, and relationships to cultivate a safe, inclusive, and responsible research and academic environment, and a Grant Management Specialist who, for the first time in OSP, is dedicated to award management support.
- **Expanded sponsored project outcomes** as you'll see in this report's data over the past five years. We've steadily improved submissions (11% average growth), grants awarded (15% average growth), funding amount (14% average growth), and proposal success rates (average of 59%).

This expansion has created what Jim Collins in his book "Good to Great" coined as the flywheel effect - when small wins accumulate over time, creating continued growth and improvement. Please enjoy this year's annual report celebrating the wins of FY23-24—and the expansion of services, programs, and sponsored projects success over the past 5 years!

# EXPANSIONS IN ACADEMIC SAFETY

In her second year at Seattle University, OSP's Breena Stoner, Academic Safety Officer, focused on expanding the visibility of existing safety programs and relationships with campus stakeholders. The university's new safety management solution, CampusOptics, provides a platform for information storage and sharing across schools and colleges and is available to anyone with SU credentials. Along with the website update, most Academic Safety information was moved to the Redhawk Hub, which includes new tools and standard operating procedure templates. Breena is excited to collaborate with staff and faculty over the coming year to continue growing safety programs and awareness on campus.

## Expanded Committee Structures

- ▶ University Safety Committee—met twice to discuss campuswide incidents and safety programs; submit comments and questions anonymously using the contact form
- ▶ Sinegal Building Safety Committee and Lab Safety Committee meetings continued
- ▶ Institutional Biosafety Committee established to review research with recombinant or synthetic nucleic acids and biohazardous materials

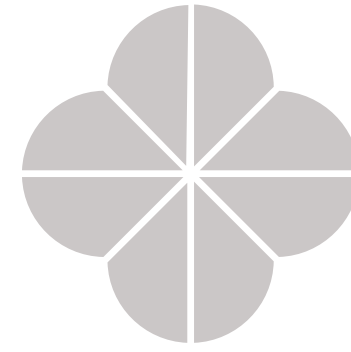

If you are interested in forming or contributing to a safety committee for your area, contact Breena (bstoner@seattleu.edu).

## Expanded Training Opportunities

- ▶ Lab Safety Orientation provided for summer researchers, new faculty and staff hires, and a microbiology lab course
- ▶ Bloodborne Pathogens training provided for staff and student employees in the Clinical Performance Lab
- ▶ Custom trainings and talks (e.g., compressed gases, biosafety cabinets, OSHA, dry ice shipping) provided on request

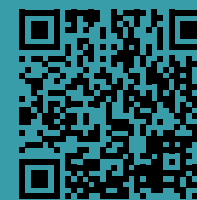

“Having trustworthy, prompt and reliable input in safety situations means not only that they are resolved more quickly, but also that I know with certainty and confidence how to handle them the next time.”

Staff Feedback

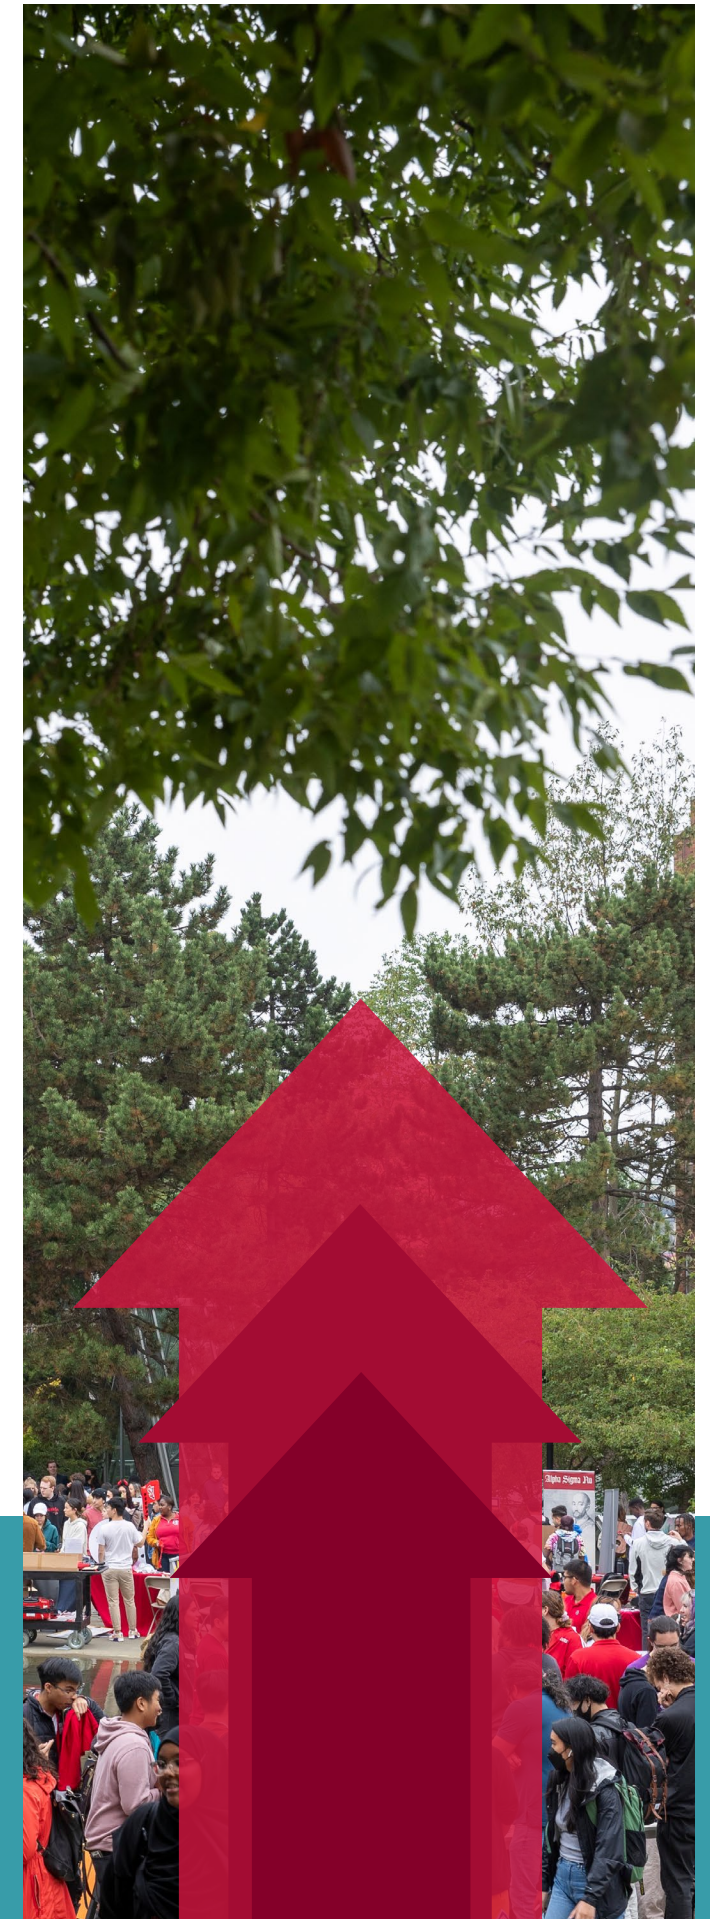

## Expanded Resources

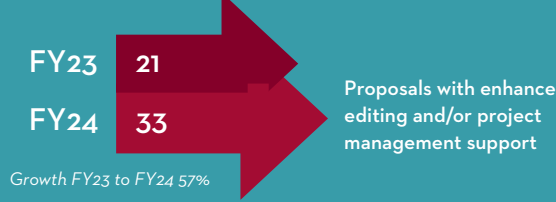

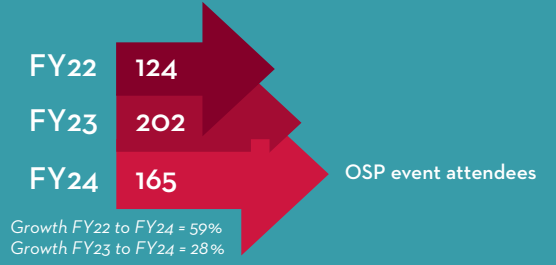

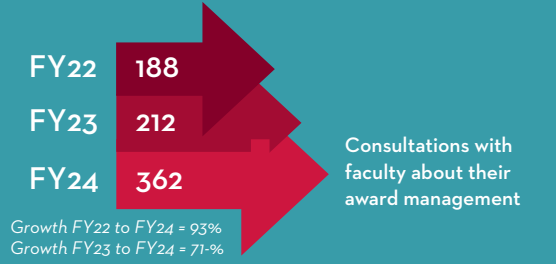

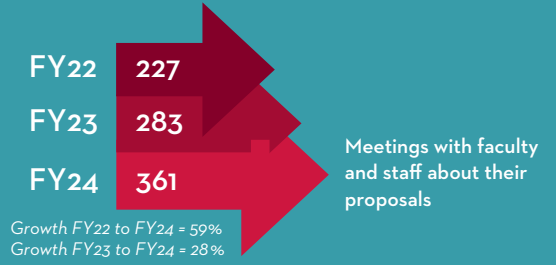

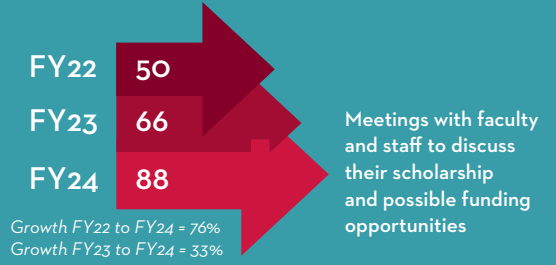

- ▶ **CampusOptics database onboarded to provide**
  - o Chemical inventory tracking by location and owner
  - o Campus-wide Safety Data Sheets
  - o Asset tracking and record management
  - o Inspection records
  - o Building- and room-level plans
- ▶ **Safety Equipment Funding program**
  - o In FY 23-24, 7 requests for funding were submitted by 5 departments in 2 colleges
  - o Over \$2,800 awarded
  - o All requests were for self-identified improvements to safety
  - o The program will continue into the next fiscal year and is available to all academic departments
  - o Purchases funded this year include:
    - Reusable Personal Protective Equipment
    - Personal Protective Equipment storage solutions
    - Automated External Defibrillator (AED) and alarmed cabinet
    - Thick-walled vacuum tubing

ACADEMIC SAFETY

Partnering with the campus community to promote a safe and healthy environment for growth

## Office of Sponsored Projects Offerings

Over the 2023-2024 academic year, the OSP hosted 11 events, including:

### Learning Opportunities

- Summer Faculty Fellowship Information Session
- Research @ SU 101
- Demystifying Proposals to the National Science Foundation
- Fulbright Panel
- Faculty Grant Writing Circle
- CAS New Faculty Lunch and Learn
- Staff Peer Learning Groups

### Celebration & Networking Events

- Scholarship Resource Fair and Luncheon
- Spring Fling Celebration Luncheon
- Lightning Talks
- Summer Research Coffee Breaks

### OSP's Expanded Services:

With year-on-year growth in almost all categories, the OSP has focused on expanding its services in FY24. We've added programming, resources, pre-award services and, most notably, post-award support. With the addition of a new position within our office, the Grant Management Specialist has been able to assist principal investigators and budget managers to better monitor their budgets and provide transactional assistance. From our current success rate (59%), it is clear that the resources and time we have dedicated towards both the pre- and post-award supports are continuing to make Seattle University proposals more competitive and externally funded projects well executed.

### Expanded Services Include:

- Subaward and subcontract management
- Transactional supports
- Enhanced proposal support
- Proposal Review by External Peers (PREP) program

# Provost's Faculty Fellowships

The Office of Sponsored Projects is proud to support the Provost's Faculty Fellowship (PFF) program. This program provides financial support to full-time faculty and full-time librarians who are involved in an active program of scholarship. PFF defines scholarship to include: discovery, integration, application, and teaching. The program provides financial support for efforts to build on previous scholarly or creative endeavors (e.g., for the writing of scholarly products or grant proposals) or to move projects in a new direction (e.g., research that could provide the basis for future grant proposals). The fellowship includes a \$7,500 stipend paid during summer 2025. Awards are made based on merit as outlined in the rubric, with an intent of supporting a diverse group of faculty across disciplines, career stages, and demographics.

Collaborative proposals from teams of up to two faculty are welcome to apply. Each collaborator will receive a full stipend. Projects that include opportunities for 1-2 undergraduate research assistants will receive additional funding to support the student.

**Applications for the 2025 Provost's Faculty Fellowship program are due November 1.**

## 2024 OSP AWARDS

### • JOB WELL DONE •

**Janie Ng, MBA**

Director of Community Impact, Albers School of Business and Economics  
For fulfilling the complex role left behind by our esteemed colleague, O. David Jackson, and quickly taking the lead in the final six months of successfully delivering on SU's commitments on the J.P. Morgan Chase SU Diversity for Inclusive Recovery Supplier Program.

### • PERSISTENT PROPOSER •

**Eric Severson, PhD**

Associate Teaching Professor, College of Arts and Sciences  
For his persistence to advance Seattle University's Core Curriculum in alignment with the Reignited Strategic Directions by leading, supporting, and/or championing six grant proposals in just one year.

### • ALL AROUND GRANTS CHAMP AWARD •

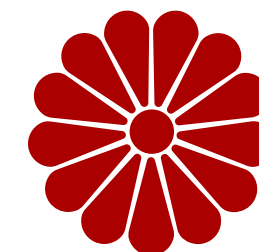

**Henry Louie, PhD**

Professor, College of Science and Engineering  
Over the past 4 years, Henry has submitted 5 proposals to the National Science Foundation with an astounding 80% success rate. Additionally, Dr. Louie has been an exemplary grant steward thanks to their exceptional organizational skills, fiscal responsibility, and strategic oversight, which have maximized the impact of each award.

### • EMBODYING THE MISSION •

**Bonnie Bowie, PhD, MBA, RN, FAAN**

Associate Dean for Graduate Programs, College of Nursing  
For embodying the mission of SU and the College of Nursing by leading the proposal effort, and now award, that will provide critical support to students and substantially increase the number and diversity of highly-trained nurse practitioners and certified nurse midwives through traineeships serving rural and underserved populations in Washington and Montana.
